

FINANCIAL ASSISTANCE FOR THE UNINSURED & UNDERINSURED

PURPOSE

Willapa Harbor Hospital is committed to the provision of emergency health care services to all persons in need of medical attention regardless of ability to pay. In order to protect the integrity of operations and fulfill this commitment, the following criteria for the provision of Financial Assistance, consistent with the requirements of Washington Administrative Code (WAC) 246-453, are established. These criteria will assist staff in making consistent and objective decisions regarding eligibility for Financial Assistance while ensuring the maintenance of a sound financial basis.

The written policy includes: (a) eligibility criteria for Financial Assistance, (b) describes the basis for calculating amounts charged to patients eligible for Financial Assistance (c) describes the method by which patients may apply for Financial Assistance and (d) describes how the Hospital will publicize the policy with the community serviced by the Hospital.

POLICY

Financial assistance may cover all appropriate hospital-based medical services, received in the hospital inpatient or outpatient/clinic setting. Services not qualifying under financial assistance may include transportation costs, elective procedures, or separately billable professional services provided by the hospital's medical staff. Non-residents of Washington State are eligible for Financial Assistance consistent with Washington Administrative Code 246-453, which includes emergent, non-scheduled services only.

ELIGIBILITY CRITERIA

Financial Assistance is generally secondary to all other financial resources available to the patient, including group or individual medical plans, worker's compensation, Medicare, Medicaid or medical assistance programs, other state, Federal, or military programs, third party liability situations (e.g. auto accidents or personal injuries), or any other situation in which another person or entity may have a legal responsibility to pay for the costs of medical services.

The medically indigent patient will be granted Financial Assistance regardless of race, color, sex, religion, age, national origin, or immigration status. In the event that the responsible party's identification as an indigent person is obvious to Hospital personnel, the Hospital is not obligated to establish the exact income level or request the documentation specified in the financial assistance application. Such individuals are determined to have presumptive eligibility (e.g., have qualified under the state Medicaid or Apple Health program.)

In those situations where, appropriate primary payment sources are not available, patients shall be considered for Financial Assistance under this Hospital policy based on the following criteria consistent with requirements of WAC 246-453-040:

FINANCIAL ASSISTANCE FOR THE UNINSURED & UNDERINSURED

A. The full amount of hospital and/or clinic charges will be determined to be Financial Assistance for a patient whose gross family income is at or below 150% of the current federal poverty guidelines (consistent with WAC code 246-453-050). These patients shall receive a 100% adjustment on their patient balance.

B. A sliding fee scale shall be used to determine the amount which shall be written off for patients with incomes between 151% and 250% of the current federal poverty level. All resources of the family as defined by the WAC 246-453-50 are considered in determining the applicability of the sliding fee scale in **Attachment A**. The sliding fee schedule shall take into account the potential necessity for allowing the responsible party to satisfy the maximum amount of charges for which the responsible party will be expected to provide payment over a reasonable period of time, without interest or late fees. In determining the maximum amount of charges, the Hospital calculates this by using the Amounts Generally Billed (AGB) look-back methodology. For the current year, the Hospital's AGB percentage is listed on **Attachment A**. (enclosed). No individual qualifying under the Financial Assistance Policy shall be charged more than the AGB for emergency care or other medically necessary services.

CATASTROPHIC FINANCIAL ASSISTANCE

The Hospital may also write off as Financial Assistance amounts for patients with family income in excess of 250% of the federal poverty standards or at a higher percentage for those above 150% of the poverty guidelines, when circumstances indicate severe financial hardship or personal loss. This will be done only upon recommendation by the patient accounts representative or Director, Business Office with adequate justification and only upon approval by the Chief Financial Officer and the Hospital's Board of Commissioners.

PROCESS FOR ELIGIBILITY DETERMINATION

Initial Determination

For the purpose of reaching an initial determination of eligibility, the Hospital shall rely upon information provided orally or in written form for Financial Assistance as outlined in the Financial Assistance Application form instructions. The Hospital may require the responsible party to sign a statement attesting to the accuracy of the information provided to the Hospital for purposes of the initial determination of eligibility. Pending final eligibility determination, the Hospital will not initiate collection efforts or requests deposits, provided that the responsible party is cooperative with the Hospital's efforts to reach a determination of sponsorship status, including return of applications and adequate documentation.

The Hospital shall use an application process for determining initial interest in and qualification for Financial Assistance. Should patients not choose to apply for Financial Assistance, they shall not be considered for Financial Assistance unless other circumstances become known to the Hospital.

FINANCIAL ASSISTANCE FOR THE UNINSURED & UNDERINSURED

Requests to provide Financial Assistance/Sliding Fee Scale will be accepted from sources such as a physician, community or religious groups, social services, financial services personnel, or the patient. If the Hospital becomes aware of factors which might qualify the patient for Financial Assistance/Sliding Fee Scale under this policy, it shall advise him or her of the potential and make an initial determination that such account is to be treated as Financial Assistance/Sliding Fee Scale.

Note that some independent providers practice at or deliver emergency or other medically necessary services for Hospital patients. Those providers are listed on Attachment B.

Final Determinations

Financial Assistance forms, instructions, and written applications shall be furnished to patients when Financial Assistance is requested, when need is indicated, or when financial screening indicates potential need. Applications, whether initiated by the patient or the hospital and/or clinics should be accompanied by documentation to verify income amounts indicated on the application form.

One or more of the following types of documentation may be acceptable for purpose of verifying income:

1. W-2 withholding statements for all employment during the relevant time period;
2. Pay stubs from all employment during the relevant time period;
3. An income tax return from the most recently filed calendar year;
4. Forms approving or denying eligibility for Medicaid and/or state-funded Medical Assistance (denial for Medicaid purely on the basis of failure to apply timely will never be sufficient documentation by itself), if applicable;
5. Forms approving or denying unemployment compensation; or
6. Written statements from employers or welfare agencies. Patients will be asked to provide verification of ineligibility for Medicaid or Medical Assistance. During the initial request period, the Hospital may pursue other sources of funding, including Medicaid.

FINANCIAL ASSISTANCE FOR THE UNINSURED & UNDERINSURED

7. In the event that the patient is not able to provide any of the documentation described above, the Hospital shall rely upon written and signed statements from the patient for making a final determination of eligibility for purposes of granting Financial Assistance.

Income shall be annualized from the date of application based upon documentation provided and upon verbal information provided by the patient. This process will be determined by the Hospital and will take into consideration seasonal employment and temporary increases and/or decreases of income. Applications will be processed within 14 days of receipt of the application to the Business Office.

Financial Assistance will be granted based on the approval guidelines as outlined in **Attachment A**. The initial determination shall remain valid for 180 days. After that, the Hospital may request updated information or re-verification of the patient's qualification status.

Patients may be asked to provide verification or eligibility for Apple Health or other Medical Assistance. During the initial request period, the hospital may pursue other sources of funding, including Medicaid.

Income verification is required as outlined in the Hospital's Financial Assistance Application form instructions.

For elective services not covered please contact the respective clinic or hospital department.

In the event of non-payment or a patient does not reasonably cooperate with the financial assistance process, the Hospital may take actions as outlined in its Patient Billing and Collection Policy; which is available by request and online.

Approvals

Financial Assistance applications will be approved once all required information is received and the income guidelines for granting Financial Assistance have been met. Applications will be processed within 14 days of receiving the application in the Business Office.

Eligibility on a completed and approved application is valid for eligible services received within the subsequent (180) days from application approval date and will be retroactive for eligible services for all dates of service that the Financial Assistance is being granted.

In the event that a responsible party pays a portion of all of the charges related to appropriate hospital-based medical care services, and is subsequently found to have met the Financial Assistance criteria at the time that services were provided, any payments in excess of the amount determined to be appropriate in accordance with WAC 246-453-020 shall be refunded to the patient within thirty days of achieving the Financial Assistance designation.
